Skills

- **Languages**: Java, JavaScript, Python, SQL
- **Frameworks**: Spring Boot, Spring Security, ReactJS, Hibernate, JPA
- **Databases**: PostgreSQL, MySQL, MongoDB
- **Tools/Platforms**: Git, GitHub, Maven, Postman, IntelliJ Idea
- **Technical Skills**: Data Structures and Algorithms (DSA), Object Oriented Programming (OOP)
- **Soft Skills**: Adaptability, Continuous Learning, Consistency

Projects

Money Manager – Track Your Expenses | GitHub | Live Jan' 25 – Feb'25

- Built a full-stack personal finance management web application that allows users to securely track incomes and expenses, manage monthly budgets, and analyze spending patterns.
- Implemented secure user authentication using Spring Security and BCrypt, along with role-based access control to ensure data privacy and protection.
- Developed RESTful APIs for managing income, expenses, and budgets, and integrated PostgreSQL for efficient data storage along with Excel report generation for financial analysis.

FleetFly – Fleet Tracking & Operations Platform | GitHub | Live July' 25 – Aug' 25

- Developed a full-stack fleet management application enabling real-time vehicle tracking, booking management, and operational monitoring through an interactive dashboard.
- Designed and implemented secure RESTful APIs with role-based access control (RBAC) to manage users, bookings, and fleet operations efficiently.
- Built a responsive dashboard using React and integrated MySQL for real-time data handling, deploying the application for reliable and scalable performance.

Training

Cipher Schools | Certificate

Data Structures and Algorithms Jun' 25 – July' 25

- Completed an intensive 120+ hour Data Structures & Algorithms program emphasizing hands-on problem-solving with arrays, linked lists, stacks, queues, trees, graphs, heaps, hashing, and recursion.
- Implemented optimized algorithms for searching, sorting, dynamic programming, graph traversal, and string manipulation while applying time- and space-complexity analysis (Big-O notation).
- Gained hands-on experience with end-to-end development workflows.

Certificates

- Cloud Infrastructure and AI Foundation Associate | Oracle Nov' 25
- Google Cloud Big Data and Machine Learning | Coursera Dec' 23

Extra-Curricular

Operations Team Member | Google Developer Student Club. Nov' 23 – Sept'24

- Coordinated logistics and on-ground operations for GDSC events and tech meetups, efficiently managing 300+ attendees and ensuring smooth execution across all sessions and activities.
- Facilitated hands-on workshops on Google technologies (Firebase, Flutter, Cloud), guiding 200+ students through deployment workflows, app development basics, and cloud-based solutions.
- Organized internal hackathons, coding challenges, and tech competitions, fostering an engaging developer community and contributing to a 30% rise in active member participation.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology Aug' 23 – Present
  Computer Science and Engineering: **CGPA: 6.72**
- **Rani Laxmi Bai Memorial School** Lucknow, UP
  Intermediate; **Percentage: 73%** Apr' 21 – Mar' 22
- **Rani Laxmi Bai Memorial School** Lucknow, UP
  Matriculation; **Percentage: 93%** Apr' 19 – Mar' 20
